

**MOBO-S65**

**MOTORIZED STAND / CABINET MOUNT**

The MOBO-S65 is a remote-controlled stand-mounted television lift for most\* flat-panel televisions up to 65". This model is designed for applications such as mounting inside a cabinet, allowing the television to raise and lower from inside. The S65 raises/lowers in a fixed orientation and does not provide tilt and swivel features (see SX65 for full-motion). The S65 has an available base mounting stand (not included). It supports a weight capacity of up to 132 lbs. (60kg) and features universal mounting points.
